

MWE485-H4

1-port RS232/485 to 4-port RS485 passive isolated HUB

Product description

The MWE485-H4 achieves the 1 port RS-232/RS-485 to 4 ports RS-485 in high rate with optic-isolation. It supports to long distance communications above 1.5km and multidrops(4 ×128 drops). This HUB can be used for RS-232/485 conversion or extending the communication ability for RS-485 Bus. This series of products adopts bus segmentation technology to realize star-type centralized network connection of RS-232/RS-485 devices and enhance bus signal load capacity. The product uses industrial-grade applications designed for system applications in complex environments.

Features:

- RS232/485 supported for master port;
- Optic-isolation for master to slave channels;
- Completely error contained, one slave node error does not affect others;
- 512 nodes broadcasting polling network mode supported;
- Intelligent module inside, auto-identify the RS-485 signal flaw;
- Industry level design, excellent import element chosen, all surface adhibit technical.

Product specifications

Technical parameters					
Standard	Compliant with EIA RS-232, RS-485, RS-422 standards				
Interface					
Interface form	Industrial terminal block				
Communication rate	ommunication rate				
Baud Rate	300bps∼115.2kbps				
LEDs	EDs				
Power indicator	POW(Red): Always lit when the power is connected normally				
Serial port transceiver					
ndicator light					
Power	T				
Power Supply	External DC5V power supply, external DC9~30V power supply				
Interface	Industrial terminal block				
Physical Characteristi	hysical Characteristics				
Shell	DIN rail shell				
Dimension	123mm×34mm×72mm				
Weight	0.13kg				
Transmission distance	ansmission distance				
Serial port line	RS-232, 15m@9600bps RS-422/RS-485, 1.2km@9600bps				
Working Environment	orking Environment				
Operating Temperature	-40°C~85°C				
Storage temperature	-40°C~85°C				
Ambient Humidity	5%~95%				
Warranty					
Warranty	5 Years				
Certification					
Certification	CE, FCC				

Ordering information

Item No.	Conversion mode		Transmission vata	Device comply
	Main port	Slave port	- Transmission rate	Power supply
MWE485-H4	RS232/RS485	4-way RS485	300bps ~ 38.4Kbps	External supply DC5~12V power supply
